

License To Carry

DPS & NRA CCW Permit Class

Class is held from
8am-6pm

Why we are different:

- ✓ One day Class:LTC & Pistol Training
- ✓ We take the guess work out of trying to coordinate and complete all of these mandatory steps.
- ✓ We also facilitate the application process with you at the store.
- ✓ We fill out and schedule your fingerprint appointment following the completion of your LTC online application.
- ✓ Part of our classroom includes driving out to our private outdoor range off site about 15 minutes east of the store.
- ✓ During this drive- you will get to experience the signs that you will be required to know the definition when you are carrying a handgun.
- ✓ We explain in 1st person instead of watching a video or looking at sample signs in a classroom.
- ✓ Real World experiences enroute to the proficiency shooting qualifications.

Teaching the world to shoot

This course provides the Texas Department of Public Safety required classroom training and firearm qualification students need to obtain a Texas License to Carry (LTC). Our courses are specifically designed to meet & EXCEED the DPS minimum requirements. Our class **includes** the NRA CCW training missing from the DPS LTC class. Our students get more training, more shooting and retain the tools necessary to defend themselves because our instructors do more for each student.

NO OTHER LOCATION or instructor/trainer engages students like this one. VOTED BEST GUN STORE 4 yrs in a row by the AUSTIN STATESMAN. Learn and enjoy the fastest permit class in the industry. This class will experience “carrying”, locating real signs, with a hands-on approach giving you the perspective needed to carry a firearm.

LTC & NRA CCW class will take a beginner from zero to basic firearm knowledge, skills and attitude necessary to carrying a concealed pistol for personal defense in one whole day. Crosshairs Texas gives students direct instruction on firearm safety, pistol nomenclature, selecting a pistol for self-defense, basic defensive skills, picking a holster, loading & stoppage remediation.

Course Prerequisite:
